Unique reach into the global laboratory & microscopy market through high circulation B2B journals and digital platforms

Description

Imaging & Microscopy magazine is the premier resource for the European microscopy community. As official partner of the European Microscopy Society you reach all members of all microscopy societies in Europe and additional microscopy specialists. Our well-organized brand has been providing readers with thought-provoking and relevant information on developments and trends in microscopy methods in the Life Sciences and Material Sciences for more than 20 years.

The magazine's high-scientific content is designed for microscopy users and developers providing practical information on new methods and applications in Light Microscopy, Electron Microscopy, Scanning Probe Microscopy, Image Processing and X-Ray Analysis. Our material covers also latest news, information from societies, announcements of meetings and conferences and the latest products for scientific research. With the help of its editorial team and an updated Editorial Advisory Board, I&M is constantly striving to ensure its content is well-rounded and meets the needs of its professional readers.

Imaging & Microscopy – the ideal partner to meet your marketing goals for 2020 and beyond.

  - Microscopy Consumables
Media Partners

European Microscopy Society (EMS)
The aims of EMS are to promote the use and the quality of advanced microscopy in all its aspects in Europe, with particular reference to developments in instrumentation and methodology and novel applications of all types of microscopy. Although light, electron and scanning-probe microscopy are expected to occupy a large place in the activities of The Society, no form of microscopy is excluded.

SCANDEM – Nordic Microscopy Society
SCANDEM was founded in 1948 in Stockholm and includes now all the Nordic countries (Denmark, Finland, Iceland, Norway and Sweden). The society has served as an active organization focusing on all aspects related to microscopy. This includes developments of the technology, specimen preparation techniques, applications in material and life sciences and new types of microscopy. Most of the members, more than 300, come from universities, research institutes and industries in the Nordic countries. An annual SCANDEM meeting is organized by a local committee. SCANDEM is a member of the International Federation of Societies for Microscopy (IFSM), and of the European Microscopy Society (EMS).

European Light Microscopy Initiative (ELMI)
ELMI was created in 2001 to establish a unique communication network between European scientists working in the field of advanced light microscopy in life science and the manufacturers of their equipment. The annual meetings of this initiative combine lecture sessions focusing on applications and workshop sessions organized by the industry partners for instrument demonstration and hands-on opportunities.

Focus on Microscopy
The FOM conferences constitute an effective meeting point for developers and users working in the rapidly evolving field of optical microscopy and imaging, playing an important role in the dissemination of information about new developments. The FOM conferences are accompanied by a technical exhibition showing the recent technical developments in microscopy and associated techniques. Focus on Microscopy 2018 is the continuation of a yearly conference series presenting the latest innovations in optical microscopy and their application in biology, medicine and the material sciences.

Support from Science
We are very proud to present the advisory board of Imaging & Microscopy to our readership. Composed of leading experts from around the world, its role is to advise on current issues and advances in all fields of modern microscopy and imaging. The board serves as a guardian for the journals’ scientific quality. In the most general term it is a sounding board and a conscience. Imaging & Microscopy calls upon suggestions and criticism that will make a good journal even better.

Royal Microscopical Society (RMS)
This international microscopical society serves the needs of its company members who represent all the major manufacturers and suppliers of microscopes, equipment and services. It is dedicated to advancing science, developing careers and supporting wider understanding of science and microscopy. Its council of trustees and members drive the direction of the society and form its long-term strategy. The society publishes the Journal of Microscopy and a series of microscopy books.

European Microscopy Congress (EMC)
emc2020 will be the largest European stage for cross-disciplinary research. The scientific programme covers the latest research in life sciences, physical sciences and engineering across all microscopy and imaging techniques. The exhibition typically attracts well over 100 exhibitors, ranging from small start-up companies to the industry giants. This makes it a great place to compare the latest products from different suppliers with many product demonstrations available and teams on hand to offer advice for any challenges you may be experiencing in the lab and answer any questions you may have.
Highly Qualified Audience 2019

Imaging & Microscopy has an audience of 18,000 pan-European readers from the scientific imaging community spanning more than 18 countries. Due to our constant media partnership, the average distribution of each issue on conferences and trade shows is 3,480 copies (Average distribution of issue 4/18–3/19).

Adept at Adapting to your Wishes

Analysis is based on distribution until August 2019.

**Data format**
We accept the following data formats: PDF, EPS, TIFF, JPG.

Please observe the following points:
1. Embed all text or convert it into streams.
2. Use only CMYK colours.
3. With pixel-oriented data formats (colour/greyscale), we require a resolution of at least 250 dpi. Bitmap files (line) should have a resolution of at least 1200 dpi.
4. For the creation of PDF files with Acrobat Distiller, we have provided you with a Joboptions file which can be downloaded at www.gitverlag.com/en/global/order_management/data_transfer/.
5. Do not compress JPG files too strongly, or this will lead to visible loss of image quality. Use the “maximum” or “high” quality gradings.
6. Do not send pre-separated or DCS files.

To avoid errors, please observe the following:
Send all text to be used and associated files together. Attach a hard copy/print-out to the layout check. Ensure that no RGB colours are used in any files, including the associated files. For files from programmes not intended for the creation of printed documents (e.g. Word, Excel, Powerpoint), the files must always be converted. This means inevitable changes in data and considerable additional work, which we have to add to your invoice.

Regardless of what type of marketing tactics and channels you use – from powerful traditional print advertising to engaging digital content marketing – quality content is always an essential part of it. Wiley’s content solutions offer you access to highly respected publications and learning tools. Benefit from 200 years of publishing experience, a trusted brand, authoritative content and incomparable scientific and professional communities. Get connected through Wiley content!

Content Solutions powering your Business!

Mix and match content campaigns to suit your marketing goals: Choose from tailored combinations of advertising, reprints, supplements and other traditional strategies, as well as powerful microsites, mobile apps, email campaigns, and interactive online learning environments.

Contact us to find out how Wiley content solutions could help drive your marketing strategy.

Advertising

Reaching the minds that matter most: Whether print or online, Wiley advertising offers access to highly targeted, influential audiences of decision makers and opinion leaders in key markets around the world. 19.5 million experts read Wiley journals in print or on WileyOnlineLibrary 100,000 decision makers in industry read our b2b publications.

Webinar

Interact with your target group: Our free-to-attend online seminars engage targeted audiences in real time as well as on-demand – offering a wealth of opportunities to showcase your brand, build thought leadership, deliver training and more.

Microsite

Connect through content: Engage with your target group and position your company as thought leader or technology expert in a certain field. Whether you choose the stand-alone version or a microsite integrated in our b2b portals, you will benefit from promotion campaigns and best technical service.

Essential Knowledge Briefings (EKB)

Exclusivity: Spread your knowledge of a hot topic via the latest channel. EssentialKnowledgeBriefings.com represents the ideal platform for your digital publications. You will not only benefit from the strong image of the Wiley brands, but also from exclusivity – no other competitor can publish an EKB on your subject.

Reprints & Sponsorship

Influence through education: Whether you choose a flyer, single article, collection of articles or abstracts with a cover, reprints and ePrints deliver the right content and right brand messages to your target audience. Or raise your profile in a special target group by sponsoring a complementary subscription to respected Wiley online journals.

Custom Publishing & Supplements

Position your brand: Grow brand awareness with a supplement – an extra issue of a peer-reviewed Wiley journal – or a corporate publishing project like customer or company magazines or corporate books. Rely on our editorial expertise and independence as well as our experienced layout team.
Digital Guides!
Essential Knowledge Briefings (EKB)

Wiley’s Essential Knowledge Briefings (EKBs) offer a concise overview (5,000 words in length) of trending topics or technologies within highly specialized fields.

Reviewed and updated annually, EKBs are an essential resource for professionals in both academia and industry looking to update their understanding of key developments within each speciality.

Take your brand further or shape your market by sponsoring an EKB that delivers highly specialized content to your target audiences. Sponsorship opportunities are available within science and engineering, and healthcare.

### Microsites
#### Focusing on your Topic

Microsites enable you to focus on a specific topic, thereby addressing potential customers specifically. This makes them an ideal tool for breaking into new markets, strengthening your image as an opinion leader and expert or establishing yourself in a new field and creating demand for your products. Whatever the goal of your communication might be, the success of a Microsite depends heavily on relevant and high quality content. Use our editorial content, our journalistic competence and our media to achieve success. Profit from the image transfer, credibility and scope of our media and use our target group portals as neutral platforms and disseminators.

General Terms and Conditions for Advertisements, Supplements, Digital and Online Advertising

1. These General Terms and Conditions shall apply to all contracts (hereinafter referred to as “orders”) relating to the publication of one or several adverts of one advertiser (hereinafter: “client”) in the magazines of Wiley-VCH GmbH & Co. KGaA (hereinafter: “publisher”) for the purpose of disseminating and relating to the placement of online advertising on the publisher’s websites. They shall also apply to orders for thinpaper supplements in the magazine supplements published by the publisher. The client acknowledges these General Terms and Conditions upon placing an order. Should the client fail to provide information, consent or notices of advertising clients will not receive an assignment as an integral part of the contract, unless the publisher expressly agrees to them.

2. The following shall apply to the client wishing to place more than one advert. The discount shown in the advert price list is only granted for advertisers’ adverts which appear in a printed product within one year. The timescale begins on the date of appearance of the first advert, unless a different start date has been agreed in writing upon signing of the order. The site of the discount is based on volume. If the client pays fewer adverts as compared to originally agreed, the publisher shall be entitled to recalculate the discount based on the difference between the actual and guaranteed number of pages.

3. A upon contractual signing, the client shall be entitled to release further adverts in addition to the volume stated in the order within the agreed timeframe or that stated in clause 2. Order cancellations must be made in writing. The cancellation charge imposed in the case of cancellation on the deadline date for the placement of the advertisement (or forecasts) to the total order value. In each specific instance, however, the client is expressly granted the right to provide proof that the advertiser suffered losses or incurred only a lower loss.

4. Orders for adverts and other marketing material to be published specifically and exclusively in specific issues, specific publications on specific dates in the publication must reach the publisher in sufficient time – or not later than the date specified in the order confirmation – for the client to be able to inform the client about the order cancellations. The client is responsible for ensuring by means of legal stipulations or if their publication is unacceptable for the publisher. This applies to orders submitted to branch offices, receiving agencies or representatives. Orders for inserts are only binding for the publisher once the insert template has been submitted and approved in writing. Inserts which, due to the format or appearance, appear to the reader to be part of the newspaper or magazine, or which contain third party adverts, shall not be accepted. 

5. The publisher reserves the right to refuse advert orders – including individual adverts under a blanket contract – or orders for inserts, on grounds of content, origin or technical format, under its own standard and factually justified principles if the content of such orders contravenes legal or regulatory stipulations or if publications are unsuitable for the publisher. This applies to orders submitted to branch offices, receiving agencies or representatives. Orders for inserts are only binding for the publisher once the insert template has been submitted and approved in writing. Inserts which, due to the format or appearance, appear to the reader to be part of the newspaper or magazine, or which contain third party adverts, shall not be accepted. 

6. If the client is responsible for punctual delivery of ready-to-print material or supplements for or punctual delivery of materials required for online advertising. In the case of digital ready-to-print material the client undertakes to deliver proper artwork, comprising in particular with the format of the technical specification of the publisher, punctually for the print material deadline. The publisher shall require replacement for recognizably miscalculated or damaged printing material without delay. The publisher guarantees print quality customary to that of the concerned within the scope of the possibilities of the printing material. Before a digital transmission of artwork, the client is responsible for ensuring fulfillment of suitable technical meansthe that the transmitted files are free of any computer viruses. Should the publisher discover computer viruses as such transferred by e-mail, said files will be deleted immediately without the possibility of the client making any related claims.

Should the publisher discover computer viruses as such transferred by e-mail, said files will be deleted immediately without the possibility of the client making any related claims.

11. If the contract is not renewed, the client shall be entitled to request a return of all previously paid issues or any remaining balance. Claims for difference in the number of issues sold (for trade magazines, where appropriate, the average actual distribution) in the previous calendar year is not exceeded. If the difference in the number of issues sold (for trade magazines, where appropriate, the average actual distribution) in the previous calendar year is not exceeded.

12. The publisher shall provide, upon request, a copy of the advert along with the invoice. Depending on the type and scope of advertising contract, advert extracts, record pages or full record numbers will be provided. If a record can no longer be created, it will be replaced with a legally binding record extract.

13. The publisher reserves the right to refuse advert orders – including individual adverts under a blanket contract – or orders for inserts, on grounds of content, origin or technical format, under its own standard and factually justified principles if the content of such orders contravenes legal or regulatory stipulations or if publications are unsuitable for the publisher. This applies to orders submitted to branch offices, receiving agencies or representatives. Orders for inserts are only binding for the publisher once the insert template has been submitted and approved in writing. Inserts which, due to the format or appearance, appear to the reader to be part of the newspaper or magazine, or which contain third party adverts, shall not be accepted. 

14. The client shall not be entitled to a reduction in payment or a corrected replacement advert in case of faulty or partly illegible, incorrect or incomprehensive printing of adverts. Should the publisher be unable to print a complete printing of adverts, but only to the extent that the purpose of the advert is affected. This shall be excluded if the defect results from incorrect data transmitted by e-mail, said files will be deleted immediately without the possibility of the client making any related claims.

15. The client shall be entitled to a reduction in payment or a corrected replacement advert in case of fully or partly illegible, incorrect or incomprehensive printing of adverts. Should the publisher be unable to print a complete printing of adverts, but only to the extent that the purpose of the advert is affected. This shall be excluded if the defect results from incorrect data transmitted by e-mail, said files will be deleted immediately without the possibility of the client making any related claims.
